>>> SOUND FAMILIAR?

In collaboration with the Research Centres, two presentations for researchers and their teams will take place this fall: on October 23 at 12 p.m. at the Douglas and on November 7 at 12 p.m. at St. Mary's. The procedures, the associated regulations, the frequent situations in research as well as a host of other relevant information will be presented to you. If you are unable to attend, the meetings will be recorded and available online.

ETHICS BOARD <<<

On September 6, the Minister of Health granted the renewal of the ministerial designation to the Montreal West Island Integrated University Health and Social Services Centre REB. This designation recognizes the REB as having the authority to operate under Article 21 of the Civil Code of Québec for the period from October 1, 2024 to September 30, 2029.

REAPPOINTMENT

➤➤➤ MINOR REVISION OF THE F11

The Nagano F11 has undergone a minor revision. Some questions have been removed, others have been reworded, information boxes have been updated and a question regarding the recruitment of participants has been added at the request of Catalis. Other small changes are to be expected.

➤➤➤ ADDING SITES TO A RESEARCH PROJECT

Did you know that, if you wish to expand your research activities to another CIUSSS facility after your project has been authorized, you must submit an amendment using the F1H? This amendment will be subject to an assessment by the REB and an expedited suitability review so that the clinical directorate collaborating on the project can approve the change.

F11 HARMONIZATION

Did you know that the F11 form is harmonized? This means that the majority of the questions on the form were developed by a working committee of the Table nationale des directeurs de recherche and distributed to all health institutions for inclusion in their F11. In this way, when a project is multicentric, the answers recorded in the F11 of one institution can be transferred to the F11s of the other institutions once the project is synchronized between institutions.
